Welcome and walk through of Haven: Haven is the new sexual assault response center for Colgate students. We invite you to stop in to meet the Haven staff and to take a tour.

The resources available at Haven became possible through the collective effort of students, staff, faculty, administrators, and members of the Board of Trustees in response to student voices, particularly survivors, who expressed a need for additional support following a sexual assault.

Haven is an important part of the campus-wide efforts to respond to sexual violence. As an extension of Counseling and Psychological Services, Haven counselors will provide confidential care and support for survivors of sexual violence. In collaboration with community and campus partners, they will also offer sexual assault awareness and prevention programming.

Colgate recognizes that sexual assault, relationship violence, harassment, and stalking can affect people of all gender identities, sexual orientations, races, ethnicities, ages, socioeconomic statuses, and national origins. We acknowledge the experience of sexual violence can be different for individuals of intersecting identities and Haven is committed to supporting individuals of all identities. Beyond Haven, Colgate continues to develop resources for community members focused on sexual violence, including the student resource guide and faculty and staff resource guide. Sexual violence remains an issue of significant concern for our community, and our intention is for Haven and other efforts to provide caring support for our students.

While following the trail of the fashion industry from retail chains to large Asian manufacturers, Aus discovers just how unsustainable overproduction is, how it risks people’s health, and depletes the planet’s resources.
