

Registration for fall 2009 term is April 1, 2, and 6 (and 7 if necessary). You may register anytime during **or after** your assigned time via the Colgate Portal (Banner Self-Service). Visit the registrar's webpage (www.colgate.edu/registrar) for complete registration information, including the registration schedule (based on class year and last name) and registration instructions.

The registrar's office is continuing its efforts to "Go Green" by providing the course offerings *online only*. The online course booklet includes all the information that was available in the old printed course booklet, plus new features that increase functionality. The course CRN, crosslist, corequisite, prerequisite, and restriction information have been added for your convenience; and by clicking on the course, you can access detailed information including course descriptions, enrollment information, and distribution/core information. Also included are new search options—you can search for all courses or only those from select departments/programs—and a "skip to last page" button for easier scrolling through the listings. **Please review the document "[How to use the online course booklet](#)" to learn more about the new/improved features and how to make the most of this resource.**

The registrar's office understands that the switch from the old printed course booklet to the online version may take some getting used to, but we can no longer justify printing thousands of copies of a document that has such a limited life span. By eliminating thousands of printed booklets, the registrar's office will be saving resources (including over 60,000 sheets of paper per term!) and supporting the University's commitment to increased sustainability. We thank you for your continued support of this initiative, and we welcome your comments and suggestions.
