Technology:

Adobe Connect Virtual Debates

Adobe connect is an online conferencing service that allows individuals to connect with audio, video and share digital assets.

Learning Goals:  

Through the debate and presentation process students had to construct clear and complex arguments. Defending these helped deepen the understanding of the subject.

Class Size: 2-100

Description:

Teams of four students were created to carry out a virtual presentation/debate of a recent or ongoing armed conflict using screen and webcam capture. Members of each team had to defend one of the following philosophies: Realism, Liberalism, Political Economy, and Constructivism.
