Dear Alumni and Friends,

On behalf of the campus community, welcome back to Colgate. We are honored to welcome you for Reunion 2026 — to celebrate, in person, all of the friendships and memories that have drawn you here.

During your time on campus, you will see how Colgate is moving forward with priorities outlined in the *Third-Century Plan*: the new Bernstein Hall, at the heart of a reimagined Middle Campus; Peter’s Glen, which provides both connection and environmental stewardship; the beginning of work to reimagine student life on Broad Street; and much more. Meanwhile, the University has dedicated itself to expanding opportunities for students and faculty and increasing the Colgate Commitment to serve 50% of our students.

I hope that these sights — of the University’s people and places — and this commitment to access provide you with a sense of Colgate’s ambition and determination.

Again, welcome back. Thank you for joining us, and best wishes for a memorable weekend at Colgate.

Brian W. Casey
President

Reunion transportation

On-demand vehicle and golf cart transportation originate in front of Reunion Headquarters. To make special arrangements, visit the Transportation Tent located outside the Reunion Headquarters or call 315-228-7781. Thursday, Friday, and Saturday, 8–2 a.m.; Sunday, 8–11 a.m.

Colgate Cruiser

The Cruiser makes regular stops at Reunion Headquarters, downtown (Colgate Inn and Colgate Bookstore), Hotel One75, Frank Dining Hall, and College Street apartments. The hours of service are:

Thursday: 4:30 p.m.–2 a.m.

Friday/Saturday: 7:30 a.m.–2:30 a.m.

Sunday: 7:30 a.m.–noon

Cruiser schedule is available on Reunion App. For live tracking, download the Colgate Shuttle app from the App Store or Google Play.

Driving and parking on campus

Clearly designated, legal parking spaces on campus are available on a first-come, first-served basis. In addition to the spaces available on campus, reunion attendees can park in the general parking lot off Broad Street, adjacent to Tyler's Field and behind Community Memorial Hospital. Whenever possible, please take advantage of the Colgate Cruiser and/or our shuttle service.

Alcohol policy

Under New York State law, persons under the age of 21 cannot purchase or be served alcoholic beverages. The University requests that everyone conform to the letter of the law. Beer and wine are provided in the tents until midnight. There will be cash bars offering mixed drinks in the main tent on the field. Please note that law prohibits the possession and/or consumption of an open container of alcohol in public places and within vehicles, including vehicles driven by our student staff.

Access pass

Keep your access pass with you all weekend. Staff and alumni want to know your name. Your access pass also grants you access to the tents on Whitnall Field.

Meal tickets

Alumni and guests registered for the Full Weekend option will have meal tickets provided at registration. Please present the appropriate ticket upon entrance to each meal. *Attendees under age 21 are invited to accompany their parents/guardians to all meals, with the exception of Saturday's dinner.*

Saturday evening class dinners

Saturday evening class and special anniversary receptions are open to those attendees age 21 and over. Attendees are asked to present meal tickets at the entrance to their dinner.

Dietary restrictions and food allergies

We strive to accommodate common dietary restrictions and provide clear labeling for those with food allergies. Food will be labeled at each meal to indicate whether it is vegetarian or vegan, or if it includes any common allergens. If you need assistance or have any questions, please speak to on-site catering staff or the staff in Reunion Headquarters.

Babysitters

A list of babysitters is available at the registration desk at Reunion Headquarters.

Privacy room

To meet the needs of nursing parents, or to accommodate personal/medical needs, a dedicated space is available in James C. Colgate Hall. Please inquire at Reunion Headquarters.

Pet policy

With the exception of guide dogs and animals specifically approved for the educational purposes of the University, pets are not allowed in campus buildings, including residential housing. Guests who are found to have animals in their rooms may be requested to leave the premises.

Reunion College sessions

Thank you to the many alumni who are presenting at Reunion College sessions throughout the weekend. We encourage you to attend these sessions, which are planned by the class program chairs to help provide a range of engagement opportunities during reunion. Please note, sentiments expressed by alumni and speakers during these sessions are their own and do not reflect the views of Colgate University.

AOC at 40: Our Past, Our Future

In celebration of the 40th anniversary of the Alumni of Color (AOC) organization, please join us for a multigenerational panel of Colgate alumni of color for an honest, energizing, and hopeful conversation about identity, belonging, and the past, present, and future of AOC at Colgate. For those of you who've recently been on campus, you know that the University looks quite different now than it did four decades ago — and in some ways, it's remained the same. Moderated by Alvin Glymph '01, co-host of the podcast After Gate, this session brings together voices spanning generations to reflect on how Colgate has evolved — its campus, its demographics, its ambitions — what has remained constant for students of color navigating it all, and what the future of the AOC will look like at Colgate. Come ready to listen, learn, laugh, and leave with a perspective you didn't arrive with.

If I Only Had a Brain: A Career in Creativity After Colgate

Bruce Morser '76

Ever notice how the Scarecrow in the Wizard of Oz worries about not having a brain but solves many problems? Creativity is difficult to pin down. Its source is everywhere, like vague flashes of lightning through dense evening fog. A fan of the Scarecrow, Bruce will use examples from his wide-ranging career in the arts to describe a joyful, unschooled approach to a career in creativity, and why his Colgate education was a particularly good preparation.

11 a.m. - *We Are Stars* (kid friendly)

2 p.m. - *Capcom Go!*

3 p.m. - *Dark Biosphere*

4 p.m. - *Dark Universe*

Descriptions of the Shows

Dark Universe

Narrated by Neil deGrasse Tyson, highlights of Dark Universe include the Milky Way galaxy spangled with exploding supernovas, novel renderings of phenomena like dark matter, and spectacular scenes of spacecraft such as the Galileo probe’s breathtaking plunge into Jupiter’s atmosphere.

Capcom Go!

An immersive, historical documentary that showcases the achievements of the Apollo program and what it took to put the first human on the Moon. It introduces a new generation to the immense challenges they overcame and will inspire viewers to become the explorers, designers, engineers, thinkers, and dreamers of the future.

Birth of Planet Earth

A full-dome show that tells the twisted tale of our planet's origin. The film employs advanced, data-driven, cinematic-quality visualizations to explore some of the greatest questions in science today: How did Earth become a living planet in the wake of our solar system's violent birth? What does its history tell us about our chances of finding other worlds that are truly Earth-like?

We Are Stars

What are we made of? Where did it all come from? Explore the secrets of our cosmic chemistry and our explosive origins. Connect life on Earth to the evolution of the Universe by following the formation of hydrogen atoms to the synthesis of carbon, and the molecules for life.

Black Holes

Black Holes takes you on a fully immersive journey through one of the most mystifying, awe-inspiring phenomena in the Universe: a black hole. Where do they come from? Where do they go? How do we find them? Is there one on Earth's horizon? What was Einstein's connection to them?

The Great Solar System Adventure

Join showman extraordinaire "The Great Schiaparelli" as he takes you on a death-defying space-time adventure within his wondrous Observatory. Travel from the sun-scorched surface of Mercury to the icy vastness of Pluto and beyond. Prepare to be subjected to the countless dangers and wonders of our solar system, on a breathtaking tour that reveals just how precious our home planet really is. Be warned though — the Observatory isn't just for show. It will transport the audience right to the heart of some of the deadliest locations in our slice of the heavens. It's going to take some fancy flying to get everyone back in one piece!

Dark Biosphere

Deep beneath the Earth's crust, hundreds of meters or kilometers below the surface, with no light, no air, and very little water, in pores and fissures of hard rock, scientists have found an enormous biodiversity of micro-organisms that thrive in extreme conditions. The Dark Biosphere challenges everything we thought we knew and challenges us to rethink not only the origin and evolution of life on Earth but its possible existence throughout the Universe.

PICKER ART GALLERY (315-228-7634)

Dana Arts Center, second floor

Friday/Saturday: 10 a.m.–5 p.m.

Sunday: Closed

Current exhibition:**Talk Soon, America: Letters to a Land of Promise and Paradox**

This year, the United States of America recognizes the semiquincentennial (250th) anniversary of the signing of the Declaration of Independence. Institutions across the country — from federal museums to small-town libraries — will commemorate the occasion in different ways, each telling a story about the United States. How should the tale of this nation be told? Is “America” a place or an idea? What or who is an “American” in 2026? In this exhibition, seven student curators set out to investigate the complex legacy of the United States and to contribute their narrative. Drawing from collections of Picker Art Gallery and the Longyear Museum of Anthropology, the exhibition examines some of the foundational concepts on which the nation and its identity have been built, the relationships and sense of belonging that form within American communities, and to how the land itself has shaped — and been shaped by — its inhabitants. Talk Soon, America was conceived as a correspondence with the nation, a letter asking for answers to the question: What does it mean to be living in the United States on the eve of its 250th year?

Please visit colgate.edu/picker for more information.

CLIFFORD GALLERY (315-228-7633)
